

如何確認必填的購買選項

1. 在「品類元數據查詢 API」中，若屬性同時具備以下條件：
 - "required": "MANDATORY"(必填)
 - "groupNumber": "NONE"(非屬性組)
 - "exposed": "EXPOSED"(購買屬性)則表示該屬性為必填的購買選項。
2. 若存在兩個以上屬性，其條件為：
 - "required": "MANDATORY"
 - "exposed": "EXPOSED"
 - "groupNumber": "1"則可擇一填寫最能代表商品資訊的屬性。
3. 不得新增不相符的選填屬性。例如：若品類僅允許輸入「顏色」與「尺寸」屬性，卻在 attributeTypeName 中輸入「安裝方式」，則商品註冊將失敗。
4. 請依據各屬性的 dataType(資料型別)填寫，並從 usableUnits(可用單位)中選擇正確的單位使用。

Category Meta Query API response example

```
"attributes": [  
  {  
    "attributeTypeName": "顏色",  
    "dataType": "STRING",  
    "inputType": "INPUT",  
    "inputValues": [],  
    "basicUnit": "無",  
    "usableUnits": [],  
    "required": "MANDATORY",  
    "groupNumber": "NONE",  
    "exposed": "EXPOSED"  
  },  
  {  
    "attributeTypeName": "數量",  
    "dataType": "NUMBER",  
    "inputType": "INPUT",  
    "inputValues": [],  
    "basicUnit": "個",  
    "usableUnits": [  
      "個",  
      "套",  
      "箱"  
    ],  
  },  
]
```

```
"required": "MANDATORY",  
"groupNumber": "NONE",  
"exposed": "EXPOSED"  
  
},
```

How to input attribute in product creation API

```
"attributes": [  
  {  
    "attributeTypeName": "顏色",  
    "attributeValueName": "黑色"  
  },  
  {  
    "attributeTypeName": "數量",  
    "attributeValueName": "1個" } ],
```
